

Interfacing Technologies Corporation is a dynamic Montreal-based software & services company with over 10 years of experience in process modeling, simulation, knowledge, and performance management software. Among Interfacing's clients are world-class organizations from diversified sectors and management consulting firms.

The **Software Quality Assurance Analyst** will report to the QA Manager and will be accountable for performing the quality assurance and testing activities. This will ensure that all Interfacing software products meet company, customer and industry standards. Moreover, the **Software Quality Assurance Analyst** is primarily responsible for the execution of QA tasks.

Task Description:

- Create, maintain and communicate test plans, and test reports, in a timely fashion
- Create automated test scripts for Performance tests
- Execute Functional, Regression, Integration, Load, and Performance tests as per test plan objectives
- Work closely with Developers, Architects, IT and Deployment for up-to-date functional and performance requirements
- Continuous learning and knowledge sharing for improved product development
- Isolate and report issues (bugs) by using Problem Tracking
- Automate regression test cases using automation tools

Qualifications:

- DEC, AEC or University degree in Computer Science, or Certificate in Computer Related Technology
- Experience in desktop and enterprise/web software products testing
- Experience in performance testing (WEB and Java Webstart applications) is an asset
- Experience in integration testing
- Bilingualism, with a high command of verbal and written English

Interpersonal skills:

- Self-motivated, team player, action-and-results oriented
- Well organized, good communication and reporting skills
- Ability to successfully work under tight project deadlines

Organizational "Fit" Considerations:

Interfacing Technologies is seeking a team player who enjoys technical challenges within a fast-paced environment, applies sound judgment in successful task planning and execution, meets deadlines, and communicates the highest standards of professionalism in his/her appearance and work habits.

If you have the interest in professional growth and joining a leading Canadian Software and Services company, it is time to consider joining Interfacing Technologies Corporation!
